I was given an opportunity to pursue groundbreaking research and tackle one of the most profound astronomical mysteries... I feel that I've made an imprint here. I have met lifelong friends and colleagues who made this a year of scientific and personal discovery; I could not be more grateful for that.

Karissa Avignon
2021-2022 American Fulbright Student
Johns Hopkins University to the University of Toronto

Virgil Parker
2021-2022 American Fulbright Student
Howard University to the University of Windsor

Jakob Faber
2021-2022 American Fulbright Student
Oberlin College to McGill University
